important to you

SeceuroShield
Physical Security

SeceuroShield 38 (Built-in)
Light Grey Finish

Welcome to the SeceuroShield range of physical security products

SeceuroShield physical security products have been protecting properties since 1985.

Although often overlooked, securing your property provides peace of mind by protecting the things that matter most to you, whether that's your home and family or your business and consequently your livelihood. With so much choice, choosing a security product that most suits your needs can seem like a daunting task but SeceuroShield industry leading products address all requirements and are manufactured, supplied and installed by industry experts who are there to offer advice and guidance beginning with your initial enquiry through to installation and after care.

Besides securing your property, many SeceuroShield products offer other benefits such as insulation and sound proofing, ventilation, or increased advertising space for your business by use of special graphics.

The emphasis behind our range of shutter and gate designs is on integration into your building and way of life; unobtrusive, attractive and easy to use. Proudly manufactured in the UK and installed to complement the look of the building, SeceuroShield products ensure they are effective and secure in daily use.

All products are supplied and installed through your local approved distributor who will be able to offer expert guidance and advice to ensure a tailor made solution.

All SeceuroShield products are:

- ✓ Made to measure for a tailor made security solution
- ✓ Manufactured in the UK
- ✓ CE Marked – Investing in a CE marked product means you are purchasing a product that is fully compliant with all European directives
- ✓ Designed to integrate security seamlessly into a building
- ✓ Approved LPCB and Secured By Design products available
- ✓ SWS UK is an ISO9001 Certified Company

Versatile security from SWS UK

Security facts – did you know...

"The goal of physical security is to convince potential attackers that the likely cost of attack exceeds the value of making the attack in the first place."

Wikipedia

*"Crime costs businesses **£19 billion** annually."*

British Chamber of Commerce

*"Every **37 seconds** a house in Britain is burgled."*

*"Retail crime cost **£14 billion** in 2011."*

*"Prevention is always better than cure. **Always Deter, Delay, Detect, Deny.**"*

Need some guidance?

See our Product Matrix on **Page 8-9** for more information.

Protecting What's Important to You

Retail

Because security doesn't have to be ugly.

What I need:

- I need to protect my premises outside of opening hours by deterring opportunist thieves and vandals
- My products still need to be visible to potential customers, even when my business is closed
- I need to protect my premises but the local planning laws have a very strict rules on shutters is there anything else
- I have a specific corporate colour and brand that I would really like to be seen 24 hours a day

SeceuroShield has a solution

The 2009/2010 Retail Crime Survey carried out by the BRC reported a significant reduction in criminal damage compared to recent years with the reduction being largely attributed to retailers considerable investment to protect their businesses better. With the help of the SeceuroShield range these statistics can only become better – prevention is always better than cure.

High street or retail park, independent or multiple, crime prevention is a necessary consideration for all retailers. The SeceuroShield range of security takes the guesswork out of the security requirements for your premises. Let one of our approved distributors talk you through the options that meet your requirements so you can be safe in the knowledge that your premises are protected.

Retailer Choice

- ✓ LPCB approved and SBD products available
- ✓ Available for both internal and external installation
- ✓ Vision available
- ✓ Electric or manual
- ✓ Built-in and built-on options
- ✓ Colour coding and branding options
- ✓ Best advice from your local experts

"We need shutters to match our school colours."

Public Sector & Business

It's our business to protect yours.

What I need:

- I don't want it to look unwelcoming when the security is in operation
- I have high value products at ground floor level that I need to protect
- I need easy operation of everything at the touch of a button
- I need to be able to darken a room to provide a projected presentation effectively
- I need the flexibility to lower shutters from my desk to stop glare from the sun on my computer screen
- I need shading with shutters that can reduce our use of air conditioning in the summer

SeceuroShield has a solution

With a wide variety of security solutions, we make it our business to protect your business. The SeceuroShield range offers the widest variety of options available in one place, allowing us to fulfil your physical security needs without compromise. Whether you're in the public or business sector,

we know that no two requirements are quite the same.

Designed and manufactured in the UK, each solution is made to measure so it's an exact fit for you. A professional survey by one of our approved local distributors will allow them to assess your specific needs and present the selection of options available in an easy to understand format. SeceuroShield has the solution.

Public Sector & Business Choice

- ✓ LPCB approved and SBD products available
- ✓ Available for both internal and external installation
- ✓ Electric or manual
- ✓ Insulated Shutters to provide shading
- ✓ One touch control
- ✓ Supplied and Installed by your local expert
- ✓ Colour matching for seamless integration
- ✓ Built-in and built-on options available

Protecting What's Important to You

"We're not worried about leaving our house during the summer."

Residential

Total peace of mind for you and your family.

What I need:

- Feel secure without compromising the look or style of my property
- Have peace of mind that my property is secure
- Reduce heat loss through windows and doors
- Be cool in the summer and warm in the winter
- To darken a room at the touch of a button
- Protect fabrics and furnishings from sun damage

According to British Crime Survey figures, there were an estimated 744,000 domestic burglaries carried out in England and Wales in 2008/2009.

SeceuroShield has a solution

Our homes are not simply the place in which we live; they are our most precious assets and a haven from the world outside. Research has shown that houses without any form of security are three times as likely to be broken into than homes with security systems. Therefore, protecting our homes has never been more important.

The SeceuroShield range of products combines easy operation with high performance to offer numerous options for any home. With a choice of insulated slats, extensive colours and even products which can be removed when not in use, security which blends into your lifestyle and the look of your home is more achievable than you may think.

Residential Choice

- ✓ LPCB approved and SBD products available
- ✓ Insulated shutters providing shading and heat retention
- ✓ Electric or manual
- ✓ Built-in or Built-on products
- ✓ Seamless integration
- ✓ Touch button control

Hospitality

Convenient protection for you and your staff.

What I need:

- To have a bar area as an operational room outside of licensed hours
- To have the option to cover a serving area
- To keep unauthorised personnel away from an area
- A choice between solid or see-through shutters

SeceuroShield has a solution

Hotels, restaurants, canteens and kiosks all have areas which need to be quickly and efficiently fenced off and bar and serving hatches which need to be securely locked up outside of opening hours. Keep your products visible as well as secure with our choice of vision shutters and retractable gates, or choose a product with insulation

benefits to increase your business's energy efficiency. With an extensive choice of colours you can choose a product which blends into the corporate look of your business.

Hospitality Choice

- ✓ LPCB approved and SBD products available
- ✓ Full integration into the premises with a choice of colour and vision
- ✓ Insulated slats offering sound reduction
- ✓ Electric or manual operation
- ✓ Remote control option to remove the need for switches easily pressed by unauthorised personnel

Other applications

Versatile security with SeceuroShield.

As well as traditional applications, the SeceuroShield range of products has proven to be extremely effective across many other projects. From animal enclosures to sheds, portable buildings, outhouses and cupboards, SeceuroShield security offers a versatile solution for almost any vulnerable opening or as an effective method of access control.

Choice

- ✓ LPCB approved and SBD products available
- ✓ Manual or electric operation
- ✓ Local expert advice for the right product
- ✓ Full choice of colours and finishes

Secured by Design

Secured by Design is the official UK Police flagship initiative supporting the principles of 'designing out crime' by use of effective crime prevention and security standards for a wide range of products and applications.

Only products which have been tested and meet the required technical standard can be awarded the Police Preferred Specification.

For more information on this initiative refer to:

www.securedbydesign.com

Insurance approved security

The rigorous LPS 1175 burglary resistance standard is operated by the Loss Prevention Certification Board (LPCB). LPCB are the UK's leading independent certification body and the LPS 1175 standard is recognised and endorsed by 16 organisations including the Association of British Insurers and the Association of Chief Police Officers.

For more information on the scheme refer to:

www.brecertification.co.uk

CE marking

Secure as standard.

The SWS UK Security Shutter range has been developed to provide an architecturally acceptable answer to the growing need for vandalism and burglary protection on domestic and commercial property. SeceuroShield is pleased to be the most comprehensive range of shutters available within the physical security industry.

Investing in SeceuroShield means you are investing in:

- ✓ UK designed, manufactured and assembled products
- ✓ A name you can trust with all products CE marked and compliant with the latest European product directives
- ✓ A selection of products tested to LPCB Level 1
- ✓ A choice of built-in and built-on products
- ✓ Wide choice of colour and finishes including graphics to make the shutter unique
- ✓ Choice of operating functions both manual and electric
- ✓ Approved local distributors offering onsite expertise and installation
- ✓ A peace of mind warranty

Insurance approved security
shutters tested to Loss

Prevention Standard
1175-1 (LPS 1175-1).

Unlike other certificated shutters, SeceuroShield 3801 (tested and approved to LPS 1175-1) uses a 38 mm double-walled extruded aluminium slat, which coils very tightly into a range of compact boxes (165 mm-250 mm), minimising their visual impact. This is often a requirement for commercial and domestic installations where aesthetic considerations are paramount. Although supplied in either white or brown as standard, they can be powder coated to reflect corporate colours if required.

- **Versatile** – Fits internally or externally in either the window reveal or around the opening
- **High quality finish** – Supplied in high quality white or brown powder coated finish as standard. Optional colours available – ask for selector chart
- **Secure** – Locking is provided automatically from the motor and manually operated bottom rail key locks or bullet locks to the side guides
- **Compact** – Housings from 165 mm-250 mm dependent on shutter height
- **Ease of use** – SeceuroDrive Tubular motors and control systems provide electric operation as standard (ask for details on motor control options)

Choose me if:

- ✓ You are looking for security without compromise
- ✓ You require electrically operated security shutters
- ✓ You are looking for an attractive solution which can be blended in to the look of your home or business
- ✓ The overall width is not greater than 3000 mm

SeceuroShield 7501 (Vision)

Retractable Security Gates

The original retractable security gate.

Elegant good looks with a heart of steel – the SeceuroGuard retractable security gate system combines a classic appearance with a high level of protection, ideal for your home or workplace.

Designed to keep intruders out while letting maximum light in, they are perfect for vulnerable ground floor windows on doors, for domestic, retail or commercial premises.

When not in use these retractable gates are surprisingly unobtrusive. Fitted to the door or window surround, they can disappear neatly behind curtains and a pelmet can be used to conceal the top track.

SeceuroGuard retractable gates are exceptionally safe and easy to handle with a smooth, quiet operation. They hang from a top track with a guide track at the base which can be supplied as an optional extra to quickly fold away when not required.

- Exceptionally strong security barrier
- Galvanised for corrosion resistance and powder coated
- Fully retractable system
- Excellent through-vision when locked
- Multi-point locking from a single key
- Smooth running carrier system
- Custom built for any opening
- Quick and easy to use
- Can be fitted with a locking post at both ends to provide maximum flexibility of operation
- Where access is not required, a fixed sash option is available
- An unlimited width can be accommodated in sections

Ideal for:

- ✓ Retail premises
- ✓ Fitting in front or behind glass
- ✓ Offices
- ✓ Commercial premises
- ✓ Domestic properties
- ✓ Where a lower cost manual option is required

SeceuroGuard | 1001 Insurance Approved Retractable Security Gates

High security tested to Loss Prevention Standard 1175-1 (LPS 1175-1).

The SeceuroGuard retractable gate system combines a classic appearance with effective protection, ideal for the home or workplace. The high security 1001 is tested and approved to LPS 1175-1. The system can be easily fitted to the face or reveal of a window or door aperture and can be specified in a single or double-sash configuration. Where a clear walk through is required SeceuroGuard's bottom track can, as an optional extra, be made to fold up.

- **Versatile** – Fits internally in either the window reveal or around the opening in either single or double-sash configuration
- **Ease of use** – Smooth top running operation with an optional extra of a fold up bottom track to leave doorways unobstructed
- **Secure** – Multi-point locking operating from a single key
- **High quality finish** – Supplied in high quality white powder coated finish as standard

of our security products:

Xpanda

**Xpanda****Deterrent Security Products**

Anti-burglar protection and deterrent security products.

The Xpanda range of physical security solutions offer a visual deterrent and act as an effective security barrier suitable across a variety of applications. The off the shelf design and trackless system ensures that Xpanda is easy to operate and is suitable across almost any size or shape of opening.

With its diamond design Xpanda creates an aesthetically pleasing, unobtrusive look and is the ideal solution where ventilation is required.

Ideal for:

- ✓ Pharmacies
- ✓ Catering facilities
- ✓ Factories
- ✓ Motorway service station concessions
- ✓ Shop display windows
- ✓ Patio doors

The Xpanda system creates an effective barrier whilst allowing for maximum air-flow. When not in use the system can be folded away for maximum visibility.

**SeceuroBar****Removable Window Bars**

Removable Window Bars.

The award-winning SeceuroBar system features anti-cut steel bars which are securely locked into position to protect vulnerable window openings, but can be released from the inside to allow total vision or maintenance of windows.

Suitable for installation in a horizontal or vertical format, SeceuroBar is finished to a high standard and delivers security which is quick and easy to install, yet highly effective in a range of locations.

A higher security fixed bar system is also available for locations where removal is not a requirement.

Other Products You Might Like

SeceuroFire Fire Protection

A recent addition to the Seceuro range, SeceuroFire offers a flame curtain and shutter. The Flame Curtain has a 2 hour rating and is the perfect solution where protection is required but without compromising on the aesthetics of a building. Usually installed within a ceiling, the Flame Curtain is activated in the event of a fire alarm or power cut to allow asset protection and safe passage from a building in the event of a fire.

The SeceuroFire Flame Shutter is the perfect solution where fire protection is needed alongside security. Built with the same attention to details as the SeceuroShield range the Flame Shutter is available with a 1,2 or 4 hour rating offering a solution for most requirements.

SeceuroGlide Garage Doors

Combining great design and exceptional build quality, the SeceuroGlide range of garage doors are designed and manufactured in the UK and offer attractive effortless protection for your home.

We understand that buying a new garage door is a significant investment for your home. The SeceuroGlide range of garage doors aims to ensure you make the most of your investment by offering a garage door that will fit all of your requirements without compromise.

Investing in a SeceuroGlide garage door means you are making the best possible investment in the future of your family's property, both in terms of appearance and security.
